Product Description

STIHL RE 110 PLUS Corded Electric Pressure Washer

The most powerful corded electric STIHL pressure washer comes with a built-in pressurized hose reel, brushless motor, and telescopic aluminum handle.

The compact, lightweight STIHL RE 110 PLUS electric pressure washer provides an easy-to-use solution to help you with your cleaning to-do list. The RE 110 PLUS delivers 2,000 psi water pressure to quickly and efficiently clean decks, driveways, sidewalks, and more. With its integrated pressurized hose reel, you can easily wind and unwind the 23-foot high-quality hose—unlike storage reels where the high pressure hose must be connected and disconnected with each use. It also makes it easy to store when done. Additionally, it comes with an adjustable flat-jet nozzle, rotary nozzle, and a detergent sprayer to tackle a variety of jobs around the home and garden. Ideal for cleaning automobiles, boats, and more, the RE 110 PLUS maximizes energy efficiency by shutting down the motor when the wand is released and reactivating the motor when the trigger is reengaged.

This tool is IPX5-rated weather-resistant construction and has been designed and tested for protection from water jets.
