Product Description

STIHL AK 30 C Lithium-Ion Battery

The STIHL AK 30 C Lithium-Ion Battery is a compact 36 V battery built for AK System tools that need stronger output and dependable runtime. This SKU's spec block lists 5.00 A·h rated capacity, while the updated battery design helps operators keep consistent power available through the job.

A 4-LED charge indicator makes battery status easy to check, and its 1.3 kg weight keeps the pack portable for routine residential cutting, trimming, and blowing work.
